

PRODUCT HANDBOOK

PRODUCTS

AIRY GOLD

Light Weight Concrete

Key Benefits:

- Better in Thermal & Sound Insulation.
- Improved Fire Resistance.
- Reduces dead loads & saves foundation or reinforcement.

Applications:

- Sunk Slabs.
- Roof Grading.
- Non-Structural Partition Walls.

DYNAMIC+

High Strength

Key Benefits:

- Early Strength.
- Improves Water Tightness.
- Focused on Durability.

Applications:

- High Rise Structures.
- Bridges.
- Dams.

PRODUCTS

UP EARLY Early Strength

Key Benefits:

- Helps in Early De-shuttering.
- Reduction of Production Time.
- Helps to meet the Production Deadlines.

Applications:

- High Walls, tunnels, roads, airport hard standings, rail fittings.
- Precast Facilities.
- Yards, car parks, access roads and floor areas.

INSTA FLOW Self Compacting Concrete

Key Benefits:

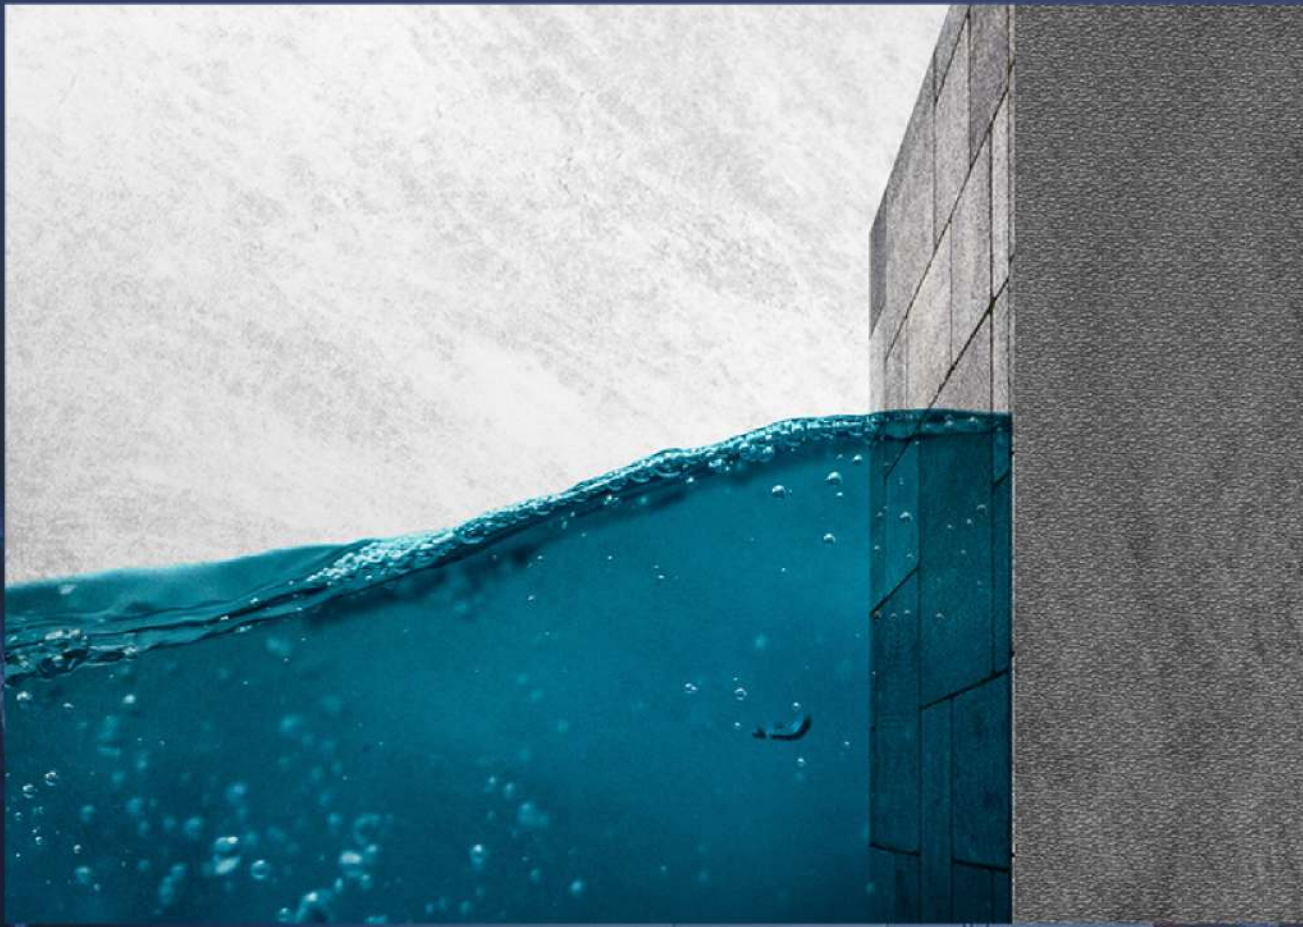

- High Workability.
- No Vibration required.
- Superior Finish and Appearance.

Applications:

- System framework.
- Dense Reinforced applications.
- Commercial slabs, deck construction, foundations, precasts.

PRODUCTS

GREAT GUARD Waterproofing

Key Benefits:

- Strengthens the Structure & Embedded reinforcement.
- Reduces Maintenance Costs.
- Provides a Healthy Environment.
- High Return of Investment.

Applications:

- Basement.
- Retaining Walls.
- Top Slab.

HEAT SHIELD

Key Benefits:

- Improve Concrete Durability.
- Reduces Thermal Stress & Cracks.
- Improve Early Setting & Suffering of Concrete.

Applications:

- Raft Foundation.
- Pavement.
- Shear Wall & Retaining Wall.
- Mega Structures like Dams, Bridges & Power Projects.

PRODUCTS

CANON Standard Concrete

Key Benefits:

- All ranges of PCC & RCC grade of Concrete.
- Quality & Consistency.
- Zero Wastage.
- Convenient Delivery.

Applications:

- Suitable for any type of Construction & Foundation.

MEGA OPTIMIX Pumpable PCC

Key Benefits:

- Pumpable Concrete
- Superfast Placing and Levelling
- Easily replaceable with traditional filling

Applications:

- PCC for foundation
- Plum Concrete
- Can be used any non-structural filling

PRODUCTS

FLOOR X PRO Steel Fibre Concrete

Key Benefits:

- Does not require any reinforcement.
- Prevents cracks due to 3D Distribution
- Reduction in overall costs.

Applications:

- Industrial Flooring.
- Load Bearing Slabs for industries.
- Slabs on Suspended Piles.

EXPRIO PP Fibre Concrete

Key Benefits:

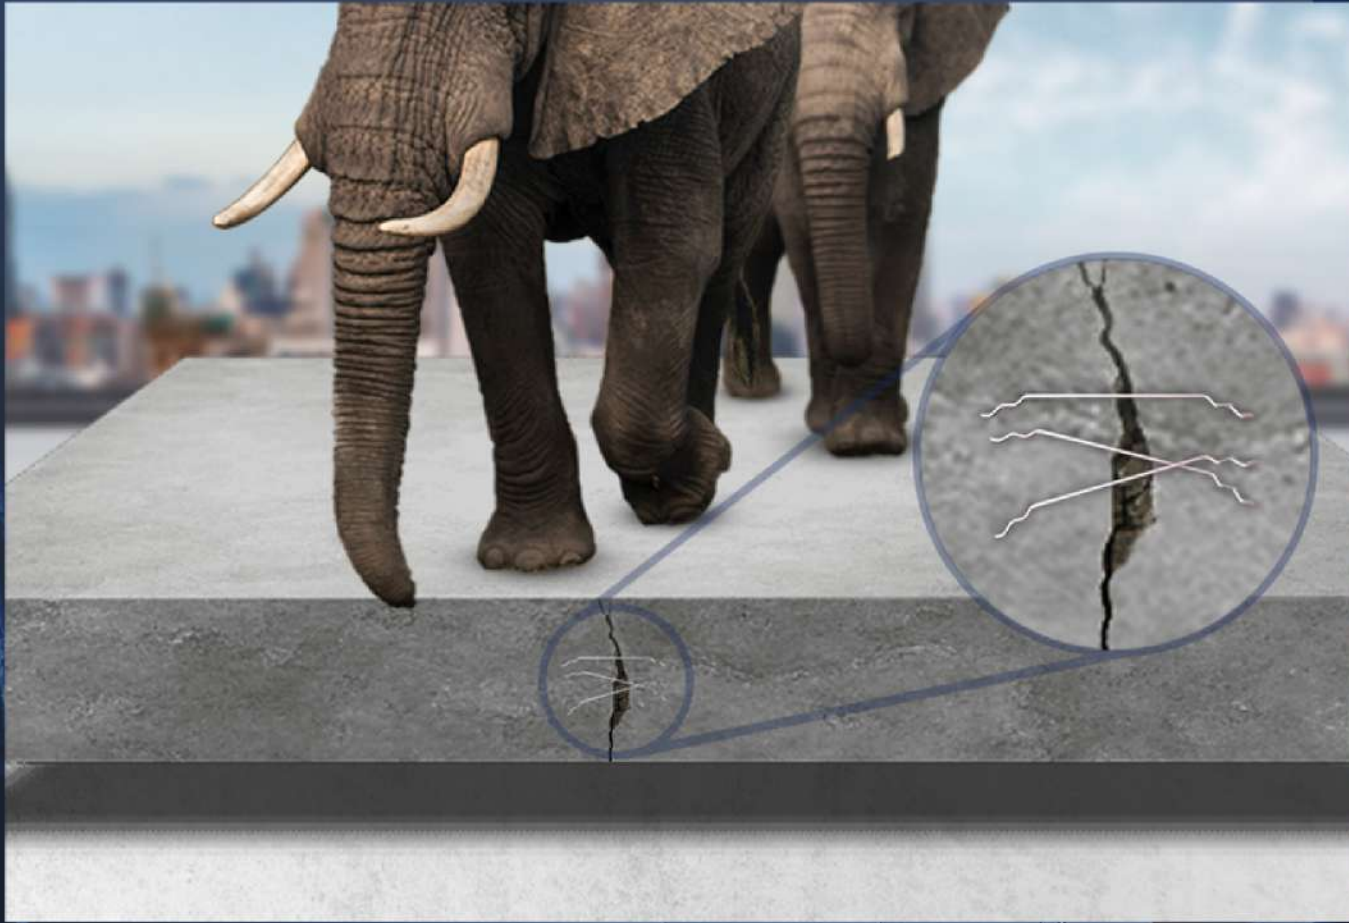

- Reduces Plastic Shrinkage by 70-85%
- Fireproof Concrete
- Enhances impact and abrasion resistance

Applications:

- Slab, Beam Wall & Shear Wall
- Driveways & Walkways
- Screed & Parking Lots

PRODUCTS

MEGA PILE Pile Concrete

Key Benefits:

- High Load Bearing Capacity
- Settlement Control
- Vibration Free Applications

Applications:

- Bridges
- Oil rigs
- Building Foundation
- Other Offshore Structures

INSTA 30 Quick Set Concrete

Key Benefits:

- Rapid Setting Time
- Reduced Downtime
- High Early Strength Gain
- Weather Resistance

Applications:

- Emergency Repairs
- Fence and Post-installation
- Precast Concrete Elements
- Anchoring

PRODUCTS

Print X Stamped Concrete

Key Benefits:

- Aesthetic Appeal
- Durability
- Longevity
- Versatility

Applications:

- Walkways and Pathways
- Pool Decks
- Courtyard • Balconies and Terraces

Colour Craft Colour Concrete

Key Benefits:

- Consistent Colour
- Highlighting Architectural Features
- Enhanced Design Flexibility
- Integration with Stamping and Texturing

Applications:

- Interior and Exterior Floors
- Commercial Entrances
- Theme Parks and Entertainment Venues
- Gardens and Landscaping

PRODUCTS

Quick Build Bag Concrete

Key Benefits:

- Portability
- DIY-Friendly
- Reduced Waste
- Convenience

Applications:

- Column, Beam, Small Slabs and Walkways
- Repairs and Patching
- Steps and Stairs

Eco Flow Permeable Concrete

Key Benefits:

- Sustainability of the environment
- Reduction of Water Pollution
- Prevention of Soil Erosion
- Improved Soil Aeration

Applications:

- Parking Lots
- Driveways
- Playgrounds
- Public Spaces and Parks
